Workshop/Training/Meeting Details:

Webinar: How Can I Improve My Child’s Academic Progress? During these two webinars, conducted in English and Spanish, participants will increase their understanding of policies that impact their children, while also learning how to effectively advocate and share information with other parents.

Miami-Dade Public Library System (MDPLS) Technobus Visit: Parents, families and community members will have the opportunity to board a mobile technology innovation lab focused on narrowing the digital divide. During this rich learning environment, participants can use popular software applications, on Mac or Windows platforms, such as MacBook Airs, iPads, Microsoft Surface Pro tablets, and Alienware gaming laptops, to explore the digital world. Coding and programing, digital photography, music production, videography and graphic design are just a few of the other activities/classes available. Job seekers will also be able to search for jobs and create resumes. The MDPLS Technobus is ADA accessible and equipped with a wheelchair lift.

Diabetes Awareness Series: In this three-week series, participants will learn about the warning signs of diabetes, strategies to control the disease, and various steps they can take to help control diabetes.

Wellness Recovery Action Plan (WRAP) Training for Selected Community Involvement Specialists/Community Liaison Specialists and Department of Title I Administration Staff: Selected school-site and district staff will receive training on WRAP, an evidence-based self-management and recovery system that is designed to increase personal empowerment, improve the quality of life, and assist people in achieving their own life goals and dreams.

Teacher Appreciation Gift Ideas: Participants will learn how to design special hand-made gifts that can be given to their child’s teacher during Teacher’s Appreciation Week.

Mental Health Effects of Sexual Assault and Abuse: Participants will learn about the various types of therapy which are used to treat sexual abuse survivors, including self-care. Parents and families will also learn tips that can help support survivors, even after the physical damage has healed.

Fatherhood Matters Support Group: In this round table support group, participants will have the opportunity to discuss the various challenges they have encountered as a father and ways to eliminate these barriers.

*Hours may be adjusted for special events.

Five Influential Women of Miami-Dade County

Gloria Estefan (1957-)

- First Cuban-American recipient of the Kennedy Center Honors, presented for her lifetime contribution to American Culture
- Single most successful crossover performer in Latin music history

Sister Jeanne O’ Laughlin, OP, Ph.D.

- First female member of the Orange Bowl Committee
- Under the leadership of *Sister Jeanne O’Laughlin*, Barry University, the state’s only women-founded institution-advanced from a small college to a thriving university.

M. Athalie Range (1916-2006)

- First African-American and second woman elected to Miami Board of Commissioners
- First African-American to serve as head of a Florida state agency

Bessie Stringfield (1911-1993)

- First African-American woman to ride across the United States solo
- One of the few civilian motorcycle dispatch riders for the United States Army during the World War II

Enid Weisman

- First woman elected Chair of the Aventura Hospital and Medical Center Board of Trustees
- Recipient of “In the Company of Woman” Award in the Mayor’s Pioneer Category

Technobus

The Miami-Dade Public Library System's Technobus is a mobile technology innovation lab focused on narrowing the digital divide in high-need communities throughout Miami-Dade County.

The Technobus brings digital services and devices directly to the community. During weekday morning hours, there are classes focused on engaging seniors to give them the skill sets they need to remain engaged in an increasingly digital world. During the afternoon, services shift to teens who have the opportunity to explore new technologies and attend classes taught by tech experts. Additionally, job seekers may use the Technobus to develop the digital edge needed to find, apply for, and obtain employment in today's dynamic online environment.

The Library's Technobus provides not only computer classroom learning, but also offers exciting STEAM activities. It's a space for digital exploration, self-expression, and entertainment. The cabin accommodates up to 11 students at a time and provides Wi-Fi Internet access. Classes and activities can be conducted on either Mac or Windows platforms using MacBook Airs, iPads, Microsoft Surface Pro tablets, and Alienware gaming laptops. The Technobus is a rich learning environment that uses popular software applications such as Microsoft Office Suite, Adobe Creative Cloud, Logic Pro, SketchUp, and more. Also offered are coding and programming activities through the use of Snap Circuits, Makey Makey, Little Bits, and other educational kits.

The Technobus also serves as a creative forum supporting digital photography, music production, videography and graphic design using popular equipment such as GoPro and Canon PowerShot cameras, MIDI keyboards, Wacom tablets, and even a Phantom drone. Lastly, the vehicle's computer gaming equipment allows teens to play with each other in a supervised, safe environment.

For more information, please contact us at 305.480.1729.

Vehicle Features

- Motorized awning
- Wheelchair lift/ADA accessible
- LED entry and exit flush mounted scene lights
- Underbody color-changing LED ground effect lighting
- Exterior PC workstation and HDTV
- Color-coordinated seating and cabinetry
- Tinted windows and custom windshield shades
- PA system with interior and exterior speakers
- 42" Teacher LCD display
- Programmable LED digital signage on windshield
- Wi-Fi system
- Collision avoidance system with back-up camera and rear side sensors
- Security system with motion detectors

Technobus

El Technobus del Sistema de Bibliotecas Públicas de Miami-Dade es un laboratorio de innovación de tecnología móvil enfocado en reducir la brecha digital en comunidades de alta necesidad en todo el condado de Miami-Dade.

El Technobus trae servicios y dispositivos digitales directamente a la comunidad. Durante las horas de la mañana entre semana, hay clases enfocadas en involucrar a las personas mayores para brindarles los conjuntos de habilidades que necesitan para mantenerse comprometidos en un mundo cada vez más digital. Durante la tarde, los servicios cambian a los adolescentes que tienen la oportunidad de explorar nuevas tecnologías y asistir a las clases impartidas por expertos en tecnología. Además, los solicitantes de empleo pueden usar el Technobus para desarrollar la ventaja digital necesaria para encontrar, solicitar y obtener empleo en el dinámico entorno en línea de hoy.

El Technobus de la Biblioteca no solo proporciona aprendizaje en el aula de informática, sino que también ofrece actividades emocionantes de STEAM. Es un espacio para la exploración digital, la autoexpresión y el entretenimiento. La cabina tiene capacidad para hasta 11 estudiantes a la vez y ofrece acceso a Internet Wi-Fi. Las clases y actividades se pueden llevar a cabo en plataformas Mac o Windows usando MacBook Airs, iPads, tabletas Microsoft Surface Pro y computadoras portátiles para juegos Alienware. El Technobus es un entorno de aprendizaje enriquecido que utiliza aplicaciones de software populares como Microsoft Office Suite, Adobe Creative Cloud, Logic Pro, SketchUp y más. También se ofrecen actividades de codificación y programación a través del uso de Snap Circuits, Makey Makey, Little Bits y otros kits educativos. El Technobus también sirve como un foro creativo que admite fotografía digital, producción musical, videografía y diseño gráfico utilizando equipos populares como las cámaras GoPro y Canon PowerShot, teclados MIDI, tabletas Wacom e incluso un dron Phantom. Por último, el equipo de juego de computadora del vehículo les permite a los adolescentes jugar entre ellos en un entorno supervisado y seguro.

Comunicación con las escuelas sobre el progreso académico de su hijo

Padres Ayudando a Padres (PHP)

está ofreciendo una presentación GRATUITA en:
